

CAMU VIRTUAL CLASSROOM

Delivering Operational Governance

There is a crisis here, and going digital is absolutely essential for survival. Camu Virtual Classroom provides a solution to the Operational Governance needed in this new scenario.

Digital transformation is no more an option to procrastinate for educational institutions. There is a crisis here, and going digital is absolutely essential for survival. Toggling between online or on campus classes will be the norm.

How long can you be Adhoc burdening the teaching faculty to choose video conferencing solutions and scheduling online classes? Students get hit with a myriad of URL's for online classes on various messaging platforms. How would you keep track of the operations? Who did what today? Are people working? Are students actually attending classes?

Camu Virtual Classroom provides a solution to the Operational Governance needed in this new scenario.

The Power of ONE

LMS 

 Operational Dashboards

Video Conferencing 

 Lecture Scheduling (from the SIS)

Value Proposition

Single Platform to schedule lectures for online and on campus classes

You can schedule courses, online sessions and once you are on campus you can use the same platform to assign rooms and allocate resources.

Joining the Virtual Classroom – As easy as it can get

Join a Virtual Classroom from your class schedule in the MyCamu mobile app. No more fuss with meeting URL's and adhoc scheduling messages.

A comprehensive Learning management solution

A simpler and powerful Learning Experience for the student and offers Academic Governance to the Institution.

Plug and play with various video conferencing solutions

Choices for the user groups to pick an appropriate Video conferencing solution.

Operational Governance at your Fingertips

Get to know the number of online classes conducted, attendance across all departments in real-time.

Online Classes & Attendance-A sample Dashboard

Get Key Insights into
