

Camu SIS for Higher Education

*PAVE THE WAY FOR
ACADEMIC GREATNESS*

Technology is reinventing the educational system to deliver a new form of learning for students and better engagement for teachers, across the world. Camu for Higher Education can transform your institution into a modern-day centre of excellence by creating a more engaging and individualised learning experience backed by seamless, streamlined administrative processes.

Camu's Outcome Based Education (OBE) and Choice Based Enrollment are two international concepts that focus on student learning to promote holistic development. Institutions can measure the learning outcomes and refine the teaching and learning methodologies accordingly.

Choice Based Enrollment

Holistic Development through Flexible Learning

Camu empowers students to curate their professional growth by giving them the freedom to choose courses aligned with their goals.

Camu brings together Program Offerings, Course Registrations, Student Records, Grading, Scholarships and Lecture Scheduling to offer a seamless experience for the students.

*Course Enrollment in 2 minutes
from a Mobile App*

To help institutions seek the highest level of accreditations, Camu delivers an integrated administration and learning solution. By being able to communicate and seamlessly share information with each other, **Camu Integrated SIS & LMS avoids duplication of processes and ensures your data is always updated, to enable faster decisions.**

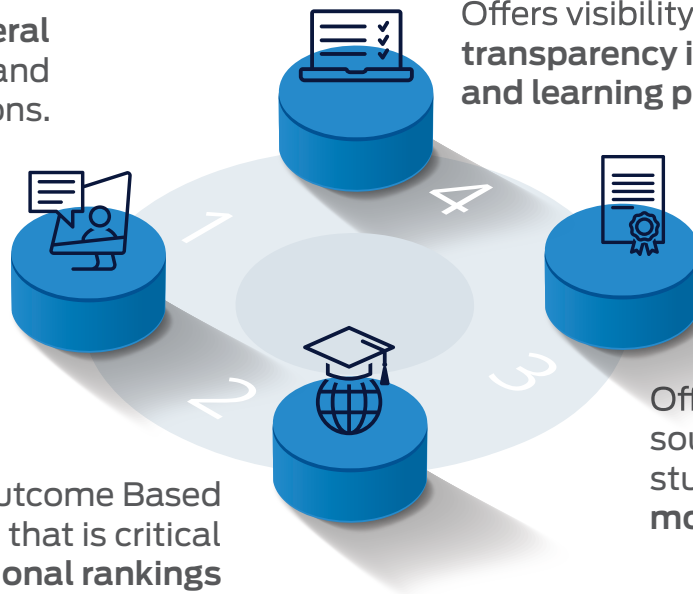

Benefits of Camu's Unified SIS & LMS:

Automates several international and local accreditations.

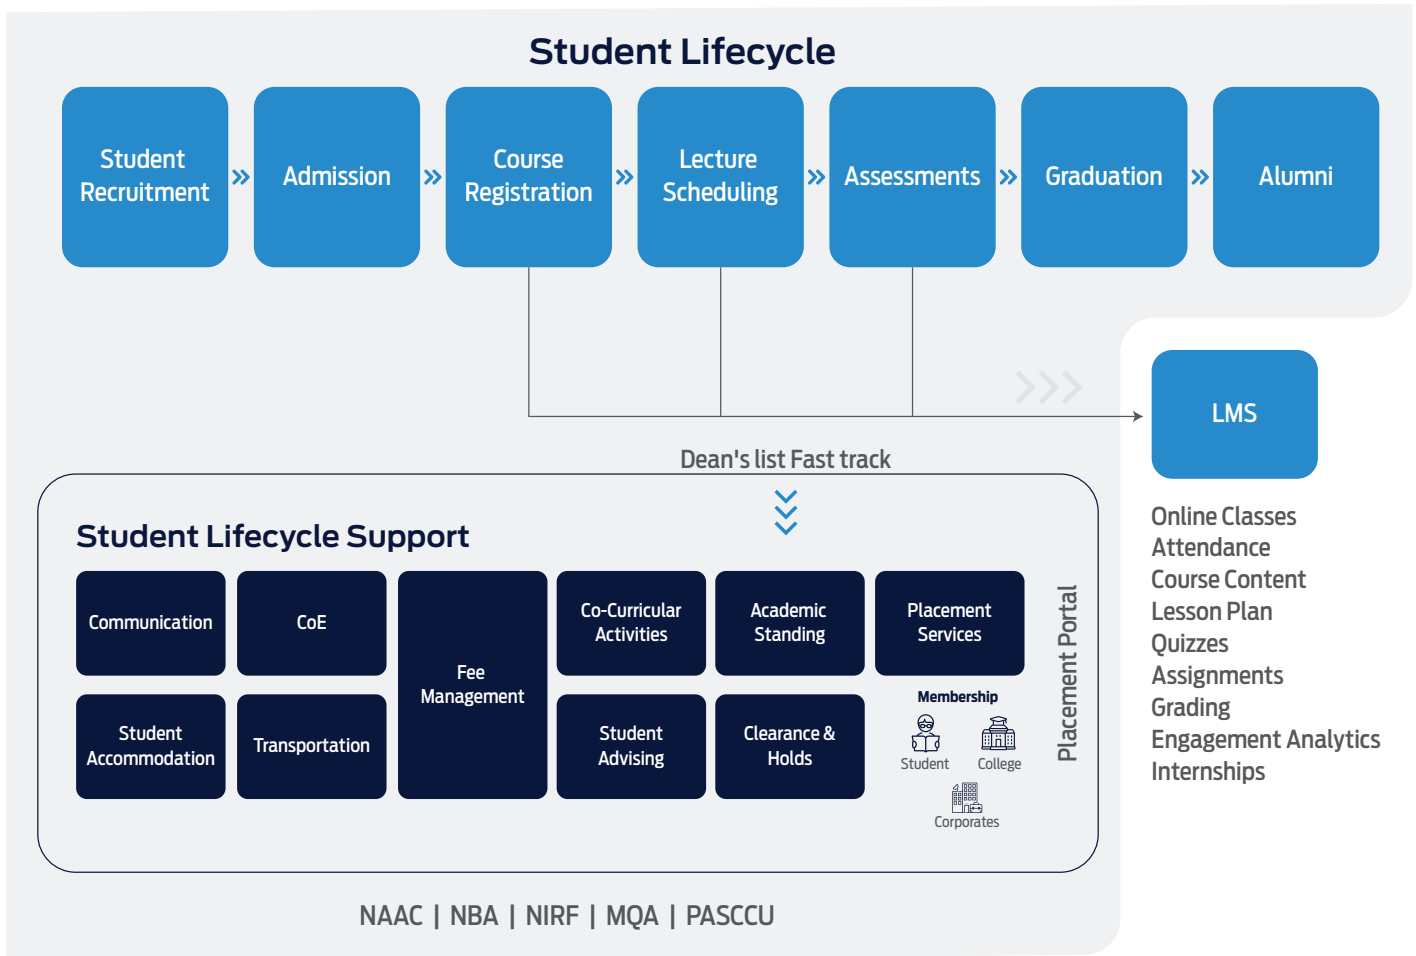

Offers visibility and transparency in the teaching and learning process.

Delivers Outcome Based Education that is critical for international rankings and accreditations.

Offers a unified data source for faculty and students, driven by mobile apps.

Camu Functional Overview

By implementing the innovative practices of Outcome Based Education and Choice Based Education and facilitating important accreditations, institutions can gear up to meet industry expectations. This will ensure that their students become employable and contribute to their roles effectively.

Camu is a powerful educational technology platform that is

transforming the academic landscape of over a million students in **500+ Institutions across 10 countries**. The system can be readily integrated with any local or international educational board or governing body. By making technology functional, accessible, convenient and safe, Camu ultimately helps institutions embark on a path of continuous improvement.
